Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. Lead poisoning also poses a particular risk to pregnant women. The seller of any interest in residential real property is required to provide the buyer with any information on lead-based paint hazards from risk assessments or inspections in the seller's possession and notify the buyer of any known lead-based paint hazards. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to purchase." The GRANTEE will be responsible for managing all lead-based paint and potential lead based paint in compliance with all applicable federal, state and local laws and regulations.

2. Further, the GRANTEE covenants and agrees that it shall, or it shall require future transferees of the Property to, abate LBP hazards in any applicable target housing in accordance with the requirements of Title X, to the extent applicable, before re-occupancy of the residential dwelling, in accordance with applicable laws. "Target housing" means any housing constructed prior to 1978, except housing for the elderly or persons with disabilities (unless any child who is less than six (6) years of age resides, or is expected to reside, in such housing) or any zero-bedroom dwelling.

4. The GRANTEE acknowledges that the GRANTOR assumes no liability for costs or any damages for personal injury, illness, disability, or death to the GRANTEE, or to any other person, including members of the general public, arising from or incident to the purchase, transportation, removal, handling, use, disposition, or other activity causing or leading to contact of any kind whatsoever with LBP on the Property, arising after the conveyance of the Property from the GRANTOR to the GRANTEE, whether the GRANTEE has properly warned, or failed to properly warn, the persons injured.

5. Upon execution of this Quitclaim Deed, the GRANTEE covenants and agrees that it shall, and it shall require future transferees of the Property to, be responsible at its own cost and expense for the maintenance and management of LBP and LBP hazards located in the improvements on the Property and that GRANTEE shall comply with Title X and all applicable Federal, state, and local laws relating to LBP.

2. The GRANTEE covenants and agrees that it shall require, and it shall require future transferees of the Property, in its use and occupancy of the Property, including but not limited to demolition of buildings containing ACM, to comply with all applicable Federal, State and local laws relating to ACM. The GRANTEE acknowledges that the GRANTOR assumes no liability for costs or any damages for personal injury, illness, disability, or death to the GRANTEE, or to any other person, including members of the general public, arising from or incident to the purchase,

transportation, removal, handling, use, disposition, or activity causing or leading to contact of any kind whatsoever with ACM in the improvements on the Property, arising after the conveyance of the Property from the GRANTOR to the GRANTEE, whether the GRANTEE has properly warned, or failed to properly warn the persons injured.

3. The GRANTEE covenants and agrees that it shall, and it shall require future transferees of the Property, upon demolition of the improvements located on the Property, remove all ACM in accordance with the EPA National Emission Standard for Hazardous Air Pollutants (NESHAP), 40 C.F.R. The GRANTEE indemnifies the GRANTOR for damages and response actions resulting from the GRANTEE's actions or the actions of a third party during GRANTEE's period of ownership. The GRANTEE specifically covenants and agrees that, simultaneously with any subsequent transfer of any or all of the Property by the GRANTEE, the GRANTEE shall notify such transferee or transferees that the provisions of this subsection H shall apply to such transferee or transferees and their respective successors and assigns for so long as they shall own any or all of the Property.

Installation: NAVAL AIR STATION KEY WEST, FLORIDA**Parcel/Site Location and Description:** Keys Federal Credit Union, Peary Court, Key West, FL**Proposed Real Estate Action Description:** Lease Termination and divestiture

Summary of Environmental Findings: The ECP site visit of 29 June 2010 was conducted by Karen Snodgrass, Environmental Protection Specialist, Environmental Assessment Section, NAVFAC SE (EV42) in accordance with the Assistant Secretary of the Navy Memorandum, Conducting Environmental Conditions of Property for Outgrants, Out Leases and Transfer of 2006. Subject property is the interior section of Peary Court Housing, Key West, Florida and has been leased to the Keys Federal Credit Union since 1985. Based on a review of available Navy documents and personnel interviews, it is unlikely environmental conditions have impacted the subject property.

SITE SUMMARY INFORMATION

1. Information regarding site uses and any hazardous materials, contamination, or conditions. MEMORANDUM FOR THE RECORD

Subj: ENVIRONMENTAL CONDITION OF THE PROPERTY UPDATE FOR NAVFAC SE PPV
DIVESTITURE OF PEARY COURT HOUSING COMPLEX AND FORMER KEYS FEDERAL CREDIT
UNION, NAVAL AIR STATION KEY WEST, FL

Ref: (a) ASN (I&E) Memorandum, DON Environmental Policy Memorandum 06-06: Streamlined
Environmental Procedures Applicable to Non-BRAC Real Estate Actions of 2006

Encl: (1) NAVFAC SE ECP checklist dtd 27 Jul 2010, Peary Court Housing, Key West, FL (2)
NAVFAC SE ECP checklist dtd 7 Sep 2010, Keys Federal Credit Union, Key West, FL

1. The Navy through its Public Private Venture (PPV) military housing program is planning divestiture (through sale) of the subject properties located in Key West Florida. During July and Sep of 2010, respectively, NAVFAC SE performed Environmental Condition of Property assessments at Peary Court and the former Keys Federal Credit Union sites, per enclosures (1) and (2). Both assessments found the properties suitable for the proposed real estate action.

2. A follow on visual site inspection (17 Jun 2013) and general knowledge of current and past use of both sites provides no reason to suspect any change to the environmental conditions (as described in enclosure (1) and (2)), that is inconsistent with the properties' continued suitability for the proposed real estate action.

3. Based upon these findings and in accordance with reference (a), it has been determined that no further action must be taken to document the environmental condition of the subject properties or their suitability for divestiture through the NAVFAC SE PPV program. The risk to the Government for the continuation of this real estate action is minimal.
