Thu, May 19, 2016 at 2:29 PM

I'm not looking for a list of plumbers and electricians.

I am looking for a list of subcontractors that are working for Layne on the Inner Islands project and Wharton-Smith on the wastewater treatment plant. The contract documents for both projects require the bidders to submit a list of subcontractors. There were also Minority/Women/Local business participation requirements. So the bidders should have provided the subcontract amounts.

Here is the applicable contract language:

Bidders are hereby informed that the FCAA encourages the utilization and participation of Minority and Women Business Enterprises and Local Businesses in contracts financed with Monroe County and Florida SRF funds. Bidders are encouraged to seek Minority and Women Business Enterprises and Local Businesses for participation in subcontracting opportunities. Contractors should use goals of 9% for MBE, 3% for WBE, and 15% of their Bid price for participation of locally owned businesses. Credit will be given in each category if a locally-owned business is also a MBE and/or WBE.

Please let me know if additional clarification is needed.

Thank you.

Margaret

Hello;

I'm following up on my public records request. I had asked for a list of subcontractors and the amount of work dollar-wise they are doing on the Cudjoe Inner Islands wastewater project and the Cudjoe Regional Wastewater Treatment Facility project.

The contractor is required to provide this information in accordance with the contract documents.

I [linked](#) to a document that you sent in response to a similar request regarding the Outer Islands project. Perhaps that will help clarify and expedite this current request.

Thanks in advance,

Margaret Blank

Hello Mrs. Blank,

Attached is the information that you requested regarding the subcontractors for Giannetti. If you will read the email below, Wharton Smith's information is listed. I believe this information closes out your request, and will be noted as such.

Regards,

Juliette B Torres

Attached is a current subcontractor listing with amounts as provided by Giannetti Contracting.

Wharton-Smith currently only has 2 subcontractors working onsite and that is Florida Bearings and Sinns & Thomas. They have not yet provided the contract amounts for these.

If additional information is needed, please let me know.

Thank you,

Subject: Re: public records request

I'm not looking for a list of plumbers and electricians.

I am looking for a list of subcontractors that are working for Layne on the Inner Islands project and Wharton-Smith on the wastewater treatment plant. The contract documents for both projects require the bidders to submit a list of subcontractors. There were also Minority/Women/Local business participation requirements. So the bidders should have provided the subcontract amounts.

Here is the applicable contract language:

Bidders are hereby informed that the FKA A encourages the utilization and participation of Minority and Women Business Enterprises and Local Businesses in contracts financed with Monroe County and Florida SRF funds. Bidders are encouraged to seek Minority and Women Business Enterprises and Local Businesses for participation in subcontracting opportunities. Contractors should use goals of 9% for MBE, 3% for WBE, and 15% of their Bid price for participation of locally owned businesses. Credit will be given in each category if a locally-owned business is also a MBE and/or WBE.

Please let me know if additional clarification is needed.

Thank you.

Margaret
